RESOLUTION NO. 603

WHEREAS the United States Geological Survey has made a report entitled "Preliminary Report on Geological and Water Resources of Mokelumne Area, California" and whereas in order to properly prepare and present the case of the City of Lodi against East Bay Municipal Utility District and others now pending in the Superior Court of the State of California, in and for the County of San Joaquin, it is desirable that more detailed information be collected in an area of about ten square miles around the City of Lodi, than was collected by said Federal survey;

BE IT RESOLVED that the City Engineer and Superintendent of Public Utilities of the City of Lodi, and their deputies and subordinates, are hereby authorized and directed to obtain the measurement, on or about the same date, of the depth to water in as nearly every well as possible in the said ten mile area, together with the depth of the well, and the elevation to United States Geological Survey datum of the point on each well from which the depth measurement was made, together with the logs of as many wells in said ten mile area as can be obtained.

BE IT FURTHER RESOLVED that said Superintendent of Public Utilities obtain, if possible, from the Pacific Gas & Electric Company, a monthly recordation of power consumption from said company's district office on each well in the Lodi District to the period contained in said report of the geological survey.

BE IT FURTHER RESOLVED That said City Engineer and said Superintendent of Public Utilities are authorized and directed to perform such other work and obtain such other information from time to time, as may be requested of them or either of them, by Lodi's consulting engineers or by attorneys representing the City of Lodi in said suit.

BE IT FURTHER RESOLVED That the City Attorney is hereby authorized to obtain, at the expense of the city, and at a cost of approximately \$200.00, a copy of said report of said geological survey or any part thereof, for use of the attorneys representing said city in said suit and for use of said consulting engineers.
